## WORK EXPERIENCE

### Front-End Application Engineer

Nascent (July 2025 - Current)

Built high-performance user interfaces for a crypto-native investment and trading firm. Worked exclusively on the trade execution engine of an internal, web-based trading and analytics platform used by professional traders to monitor markets, analyze data, and execute trades in real time. Collaborated closely with traders and backend engineers to refine product usability and functionality, ensure reliability of financial data under heavy load, and optimize real-time updates for speed and accuracy.

### Front-End Engineer

Compose (Sep. 2022 - May 2025)

Served as a Frontend Engineer developing UI for the company's internal SaaS product while also contributing to client-facing builds through its sister company, Udundi. Built scalable interfaces using React, SvelteKit, and TypeScript, with a strong focus on performance, user experience, and scalability for large user bases. Set technical direction, mentored junior developers, and collaborated closely with design and product teams to ship polished experiences across both SaaS and high-traffic client storefronts.

## **Founder/Chief Executive Officer**

**Hryzn, Inc. (Nov. 2021 - Mar. 2022)**

Co-founded and engineered a scalable social networking platform using SvelteKit, Node.js, and MongoDB. Designed all frontend features, UI states, and responsive layouts from scratch. Integrated marketing analytics and user behavior tracking to drive product iterations. Managed deployment, performance tuning, and user growth strategies.

## **Software Engineer**

**Wilki Digital (Mar. 2019 - Nov. 2021)**

Delivered modern, responsive websites and dashboards for clients using React, Vue, and Tailwind. Created CMS integrations, animation layers, and custom components for marketing pages. Led small project teams, provided technical consultation, and handled client presentations.

## **Freelance Web Developer**

**N/A (Oct. 2018 - Mar. 2019)**

Provided augmentation work to existing development teams. Worked with clients to build and maintain an online presence for small businesses. Offered consultation services to help scale plateaued online businesses. Integrated 3rd-party APIs and marketing tools (Mailchimp, Stripe, Calendly).

## **Front End Developer**

**Advantage Services (Apr. 2018 - Oct. 2018)**

Designed and developed front end for client web sites. Collaborated with designers to ensure aesthetic UI and a quality user experience. Optimized, designed, and maintained coding solutions for existing clients. Constantly worked with executive management to exceed client demands.

## **Assistant Marketing Manager**

**Leaf Home Water Solutions (Mar. 2022 - Sep. 2022)**

Leadership role setting up and working shows/events, delegating tasks, and managing projects to exceed a desired outcome. Worked in a fast-paced customer-facing role, speaking directly with prospects to engage and deliver an exceptional experience for our sales funnel. Top performing marketer in our office, raising our lead count by over 400% and promoted to assistant manager.
